27 steps to the perfect website layout | Creative Bloq

Avoid using too many photos per page. Both desktop and mobile browsers can struggle to load pages which display a large number of photos or videos. While images are important in web design, using more than a few per page can cause unnecessarily long load times, which will prevent people from visiting the page(s) in question.

How to Design a Website (with Example HTML) - wikiHow

What is Web Development? Website Development is a process for creating a new website or implementing changes to one already in use, e.g. adding a significant new section to a live site. In simple terms, the process represents a framework within which all activitiesâ€”from inception to review (and eventual demise, if necessary)â€”can take place.
