Mechatronics, which is also called mechatronic engineering, is a multidisciplinary branch of engineering that focuses on the engineering of both electrical and mechanical systems, and also includes a combination of robotics, electronics, computer, telecommunications, systems, control, and product engineering. As technology advances over time, various subfields of engineering have succeeded in ...

Microelectromechanical systems (MEMS, also written as micro-electro-mechanical, MicroElectroMechanical or microelectronic and microelectromechanical systems and the related micromechatronics) is the technology of microscopic devices, particularly those with moving parts. It merges at the nano-scale into nanoelectromechanical systems (NEMS) and nanotechnology.

Wainbee's ability to integrate hydraulic, pneumatic, electromechanical, control, machining and filtration technologies has allowed us to offer smart systems for many applications. Because we are not limited to one or two technologies, you can be assured of the most cost-effective, best performing solution to your production challenges. In addition to system design, our highly experienced ...

Advanced Motion Systems Inc. offers Automation, robotic and vision solutions in NY. Advanced motion systems have solutions for the OEM's machine builders as well as end users looking to improve the performance of automation machinery. We have expertise in Traceability, machine Vision, barcode, robotic and networking Technology Solutions.

Our FL65 Fresnel lens is made of an infrared transmitting material that has an IR transmission range of 8 to 14 u m which is most sensitive to human body radiation. It is designed to have its grooves facing the IR sensing element so that a smooth surface is presented to the subject side of the lens which is usually the outside of an enclosure that houses the sensor.

Product Spotlight. Rose+Krieger manufactures an extensive line of machine tool components for assembly, automation, and production environments. ClampWorks offers aluminum and steel tubing with die-cast aluminum clamps for quick-and-easy positioning and repositioning. FrameWorks is a high-quality, easy-to-assemble extruded aluminum construction system ideal for any application.
